Jessica's goals for Lansing:

Jobs. **Create good jobs** by ensuring prompt redevelopment of GM sites, revitalizing business districts and encouraging partnerships with MSU, labor, business and others in the region.

People. **Treat all people with respect** by including them in Lansing's rebirth — caring for those who are unable to meet basic needs, working for fairness and equality, and improving Lansing schools.

Environment. **Protect the environment** by keeping pollution out of our rivers and streams, improving energy conservation and efficiency programs, making Lansing a walk-and-bike friendly city, and preserving and enhancing parks and greenspace.
